

BE THE BOSS

What does FEAR mean to you?

FEAR stands for “False Evidence Appearing Real”, fear can stop us in our tracks before we can even start. We believe that something is impossible to do, before we’ve even taken the first steps.

Use this to help you start mapping out your first steps, write down your motivations that will keep you moving forward day and night, and take your first steps towards Being The Boss.

Write your answers here!

What is your “Big Hairy Audacious Goal” or BHAG? Where do you want to be in ten years time? What kind of life do you want for yourself, your family, your children? What is your vision?	
Networking is an important skill that will help you on your business journey. What networks are you part of already? Where do your ideal clients go to grow their business? What resources do you already have that can help you become a better business owner?	
What are three different ways you have upskilled yourself? Continuing to educate yourself and learn is critical to your business journey. What courses have you taken or books have you read that you have learned something from?
